Tangerang

Fullstack Web Developer & Systems Business Analyst with hands-on experience in building scalable web applications and designing end-to-end business processes. Skilled in fullstack development across frontend (React.js, Next.js) and backend (Laravel, Express.js), along with database architecture (PostgreSQL). Adept at gathering business requirements, mapping complex workflows, designing ERDs, and translating business needs into high-performing technical solutions that optimize operational efficiency.

Pengalaman Kerja

Biro Teknologi Informasi - Universitas Mercu Buana - Jakarta Barat

Feb 2025 - Oct 2026

Fullstack Developer Intern

- Analyzed business requirements and designed end-to-end recruitment workflows for the UMB Internship System, translating stakeholders' needs into a fullstack application that handled 100+ student applications and optimized query performance.
- Developed 20+ RESTful API endpoints for the Business Intelligence Dashboard, improving data reporting speed and processing efficiency by 30%.
- Designed the initial ERD and collaborated with a 2-member team to build the Pusat Unggulan Ilmu Pengetahuan & Teknologi System (PUI) through final completion.
- Mapped and engineered core business processes from scratch to build the BTI Management System, designing comprehensive database models (ERD) and end-to-end system architectures that streamlined internal operational workflows.
- Modeled event management business processes and system logic to develop an Event Management System, enabling seamless cross-departmental coordination for 10+ institutional events.
- Maintained and optimized the Institutional Financial Support System (IFSS), resolving 15+ technical bugs and maintaining 98%+ system uptime for accurate financial data processing.
- Managed ongoing maintenance and bug fixes for Universitas Mercu Buana's Partnership System (SIKERMA), improving platform stability across 10+ active partnership modules.
- Developed and enhanced 5+ core features for the Universitas Mercu Buana Library System (OLS) to improve system capability and user experience.

Sinergi8Consulting - Jakarta

Jan 2026 - Mar 2026

Frontend Developer Freelance

- Designed and developed 1 custom WordPress company profile for Sinergi 8 Consulting, optimizing performance to achieve fast loading times and a highly responsive user experience.

Jenjang Pendidikan

Universitas Mercu Buana - Jakarta Barat

Aug 2022 - Dec 2026 (Perkiraan)
